

Dear Mr. or Ms.:

Subject: Invitation for Participation in the XXXVI ENEE

Date: 26-04-2015

The National Conference of Nursing Students (ENEE) had its origin in June 1978 and was the catalyst of the student movement of Nursing associations in Portugal and the creator of the National Federation of Nursing Student Associations (FNAEE). Currently FNAEE represents all nursing students in a universe of about 16,000 students, a total of about 41 courses divided between Universities, Polytechnics and Schools of Public System, Private and concordat.

ENEE is still running up till the present day, usually in the last week of May, counting in May 2015 to its 36th edition. The organization of this event is of the responsibility of the National Federation of Nursing Student Associations (FNAEE), which annually promotes ENEE covering students and nursing professionals from all across the country.

This event counts with the participation of about 3,000 nursing students, nurses and caregivers. In this connection, and in order to broaden horizons in terms of nursing practice, but also in terms of knowledge of other realities of the profession, becomes imminent the value in establish inter-connecting bridges and sharing of experiences, order to enhance the most formative value of the meeting.

This requires that FNAEE, organizations of ENEE's and nursing students uses the energy of this meeting, and his organization, in favor of scientific training and development of nursing.

Since 2011 ENEE changed its training offer, changing a set of passive learning conference for an extended list of workshops active learning by the participants. The result was a significant increase of the number of participants in the training component and the change in the interests of participants in these sessions. This edition will have about 60 workshops, which aims to provide participants knowledge and skills that are useful to their professional practice.

In this sense, and recognizing your authority as a training respectful institution and recognized in the Iberian Peninsula, we would like to invite your institution to take an active and integral role in this event from the 37th edition, in the formative component, with the organization of a number of workshops, for prior agreement with the organization, led and organized by your teachers.

Being our main objective the promotion and instigation of the nursing profession, both at a theoretical level and a practical level, we consider important to multicultural and professional surroundings of the national context, but also in neighboring countries. We believe that the merger of several knowledge's and experience will contribute positively to the construction of a training component increasingly,, promising and strong, as an advantage for all participants.

In order to frame this component, I'm sending you the training plan for this 36th edition, in order for you to examine the thematic palette that this year made available free of charge to participants¹. We would also like to address the invitation to students of your institution, for this 36th edition. We also inform that we provide certification for each workshop, in order to prove the presence of students in them. It is with great interest that we propose this partnership hoping that promotes the quality of a meeting with 36 years of history. We count on you.

¹ Workshops are not paid separately. In the purchase of general ticket for the event all students may participate in all the workshops, requiring only prior registration on the required workshops

Thank you in advance for attention, we are available for any contact.

Yours faithfully,
For COENEE 2014/15
Joana de Castro (918521914)
